

Minimum Middle/Junior High School Personal Graduation Plan (PGP) Standards and Guidance Associated with Intensive Programs of Instruction (IPI)

Personal Graduation Plan (PGP) for Middle/Junior High School Students

Texas Education Code (TEC) §28.0212 requires the development and administration of a personal graduation plan (PGP) for each student enrolled in a school district junior high or middle school who:

(1) does not perform satisfactorily on the State of Texas Assessments of Academic Readiness (STAAR) in any

Whereas the statutory requirements for accelerated instruction in TEC §28.0211, in recent years have become more intentionally focused and intensive, this section which the IPI is addressed has been modified. Because of this, the agency has received questions about how local educational agencies (LEAs) should implement the IPI requirements

- If a student requires the development of an IPI due to not performing satisfactorily on STAAR STAAR EOC the expectation to comply with the IPI requirement would be compliance with the accelerated instruction requirements under TEC, §28.0211. Therefore, the documents and processes that comply with accelerated instruction requirements would also serve as the required for this instance.
- If a student requires the development of an IPI based on the determination that the student is not likely to receive his or her high school diploma before the fifth school year following graduation or
